TTMPC REGANT — Demo Accounts & Scenarios (Complete)

Oct 23, 2026 · @Ponkiatz

Every account, its seeded starting data, and the scenario it demonstrates, ordered so each role logs in **once**: Applicants → Members → Cashier → Bookkeeper → BOD → Secretary → Manager → Treasurer. All figures use the live fee policies in Supabase (Consolidated 0.83% add-on, Emergency 2% diminishing, Bonus 2%, Non-member Bonus 3%) and the formulas in the Loan Computation Walkthrough.

Conventions and checks before demo day

Conventions used in this doc

- Seed dates assume the demo runs on or before **Oct 24, 2026**. Every loan's due date is the **25th** of the month (system rule: first due = 25th of the month after release).
- New sample members take IDs **TTMPC-301 to TTMPC-320** (live database currently ends at TTMPC-296, so no collisions).
- Emails use Gmail plus-addressing, e.g. `ttmpc.demo+m01@gmail.com`. Replace `ttmpc.demo` with one Gmail you own — every loan-status email then lands in one inbox you can show live.
- Membership fee **₱100** and initial paid-up capital (CBU minimum) **₱10,000** match the most common values already in `membership_payments`. Confirm with the coop if the policy amount differs.
- Penalty formula (from `compute_loan_penalty()`): remaining balance × rate × months past grace. Grace = 3 months after the earliest unpaid due date. Rate 2% (1% for Bonus). Partial months count as a full month.

Verify these before demo day — each can break a scenario

- [ ] **Bonus loan window.** Bonus and Non-member Bonus applications are blocked by a DB trigger outside **May and November**. If the demo is in October, Member4 and Non-Member1 cannot submit. Hold the demo on/after Nov 1, or pre-seed those two loans as `pending`.
- [ ] **Demo after Oct 25 changes numbers.** After each 25th, Members 17 and 18 gain one more overdue month, and every "next due" shifts. Recompute penalties on the day (formula above).

- [ ] **"Sent for Revision" label for Applicant4.** `member_applications.application_status` has no CHECK list; confirm the exact status text your BOD page writes when returning an application, and seed that value.
- [ ] **Treasurer Rescheduled tab.** RESCHEDULED_LOANS_PLAN.md marked it "not yet built" on Sep 23. Confirm it exists in your build before planning Member2's reschedule.
- [ ] **Credit-risk classes.** The risk model decides the final class. Seed the drivers in the Member roster, run `/api/risk/predict` once before the demo, and nudge loan amount or prior-loan history if a member lands in the wrong class.
- [ ] **Vault balance.** Set the vault to **₱400,000** before Member2 reaches the Treasurer so the insufficient-funds reschedule triggers.

Staff logins

These already exist in the live database. Passwords are not listed here — keep them in your own credentials sheet.

Role	Login email	Membership ID	Notes
BOD (account admin)	BOD@gmail.com	TTMPC-004	`can_manage_accounts = true` — can terminate and assign roles
Secretary	secretary@gmail.com	TTMPC-130	PMES attendance, membership records (view-only)
Cashier	cashier@gmail.com	TTMPC-148	Payments, membership fees, CBU, savings, CBU payout, non-member encoding
Bookkeeper	bookkeeper@gmail.com	TTMPC-164	Evaluation, MIGS, credit risk, payment validation, overrides
Treasurer	treasurer@gmail.com	TTMPC-237	Disbursement approval, vault, reschedule
Manager	manager@gmail.com	TTMPC-241	Loan approval, revision requests

The same staff email also opens the Member portal (one login per person), so don't use these accounts for member scenarios.

Applicant accounts

All five are public-school teachers in Tubungan, Iloilo, with a complete Personal Data Sheet (name, birth date, civil status, address, contact, TIN, GSIS no., parents, occupation, employer, salary). Attendance values use the live `attendance_logs` CHECK list.

Applicant	Name	Email	Occupation / net pay	Seeded state before demo	Ends as
Applicant1	Carla M. Bautista	ttmpc.demo+a01@gmail.com	Teacher I, ₱24,500	Form submitted; `application_status = Pending`; no attendance row	Approved for PMES (BOD, live)
Applicant2	Paolo R. Espinosa	ttmpc.demo+a02@gmail.com	Teacher I, ₱24,500	Approved for PMES; `attendance_logs`: stage `Training`, meeting type `PMES`, status `Pending`, meeting date Oct 24, 2026	PMES `Present` (Secretary, live)
Applicant3	Joanna T. Lacson	ttmpc.demo+a03@gmail.com	Teacher II, ₱27,800	Missed Oct 10 PMES (`Absent`); new row stage `Rescheduled Training`, status `Rescheduled`, new date Nov 7, 2026	Shows rescheduled PMES on her portal
Applicant4	Miguel A. Sorongon	ttmpc.demo+a04@gmail.com	Teacher I, ₱24,500	Returned by BOD for revision; remarks: "TIN and GSIS no. missing; re-upload valid government ID"	Shows revision remarks; resubmits corrected form
Applicant5	Hazel P. Gumban	ttmpc.demo+a05@gmail.com	Teacher III, ₱31,200	PMES `Present` (Oct 10); `membership_payments`: MEMBERSHIP_FEE ₱100 and INITIAL_PAID_UP_CAPITAL ₱10,000 both `pending`	Paid (Cashier, live) → approved as a member with the next system-generated ID (BOD, live)

Member roster

Every member is `active`, bona fide, has a complete PDS, a MIGS snapshot, a CBU ledger and a savings account (next section). Employer for all: DepEd — Tubungan District, Iloilo. Email pattern: `ttmpc.demo+mNN@gmail.com`.

Credit-risk drivers to seed (feature names from `risk_model.py`):

- **Member1 → Medium:** 1 prior Consolidated (₱200,000, fully paid) with `PriorBehind = 2`, `PriorRefinances = 1`, `ConcurrentLoans = 0`, savings ₱6,500, `MonthsSinceLastLoan = 7`.
- **Member2 → High:** large `LoanAmount` (₱600,000, 60 months), `ConcurrentLoans = 1` (active Emergency), `PriorBehind = 3`, `PriorPenalties = 2`, `PriorRestructured = 1`, rising `DebtGrowth`, 4 dependents, ₱4,800 grocery on credit.
- **Member3 → Low:** small `LoanAmount` (₱20,000), 4 prior loans all on time, `PriorPenalties = 0`, savings ₱25,000, `HasTimeDeposit = true`.
- **Member4 → Low:** small Bonus loan, 3 prior Bonus loans paid on time, savings ₱18,000, no concurrent loans.

CBU ledger and savings seed

Each member's CBU is built from three kinds of `capital_build_up` lines: the initial paid-up capital on the membership date, cash deposits, and the 2% CBU retained from each Consolidated/Emergency loan release. Balances are sized so every requested loan fits the multiplier (MIGS 5× CBU, Non-MIGS 3×). Insert lines with date-only `transaction_date` and let `set_cbu_deposit_id()` assign IDs.

M-2	Member2	Apply → Consolidated → ₱600,000, 60 months (terms up to 72 allowed at ≥₱500k); submit	Amortization ₱14,980.00, net ₱585,890.00; dashboard still shows the active Emergency loan
M-3	Member3	Apply → Emergency → ₱20,000, 12 months, reason "Medical expenses"; submit	Month-1 payment ₱2,033.33, net ₱19,500.00. Optional: type ₱25,000 first to show the ₱20,000 cap error
M-4	Member4	Apply → Bonus → ₱30,000, 5 months; submit	Amortization ₱6,600.00, net ₱29,900.00. Works only in May/November — in October the window error appears (also worth showing)

#	Account	Do this	Expected result
M-5	Member5	Apply → Consolidated → Renewal (8 of 6 payments met) → ₱300,000, 48 months; submit	Old balance ₱119,920.00 deducted; cash released ₱172,975.00
M-6	Member6	Apply → Consolidated → Renewal	Blocked: 3 of 6 payments. Click **Request override**, enter reason (≥20 characters, e.g. "Typhoon damage to house roof, urgent repair needed"); request shows `pending`

Scenarios — Cashier

Loan payments are allocated **penalty → arrears → current → credit** and wait as `pending_bookkeeper` until the Bookkeeper validates them. Every transaction pops up a receipt.

#	Account	Do this	Expected result
C-1	Member12	Payments → Consolidated → record ₱5,996.00 for the Oct 25 installment	Applied to current ₱5,996.00; no deficiency; outstanding becomes ₱119,920.00 after validation
C-2	Member13	Record ₱4,000.00	Applied to current ₱4,000.00; deficiency ₱1,996.00 carried as arrears
C-3	Member14	Record ₱8,000.00	Applied to current ₱5,996.00; credit ₱2,004.00 toward the next installment
C-4	Member15	Payments → Emergency → record ₱1,833.33 (7th installment)	7 of 12 paid; principal balance ₱8,333.38; remaining payable ₱8,666.71
C-5	Member16	Payments → Bonus → record ₱6,600.00 (5th installment)	Loan reaches ₱33,000.00 paid; becomes `fully paid` after Bookkeeper validation

#	Account	Do this	Expected result
C-6	Member17	Payments → Bonus → record ₱6,930.00	Penalty ₱330.00 shown and paid first; ₱6,600.00 to June arrears
C-7	Member18	Payments → Consolidated → record ₱10,000.00	Penalty ₱4,796.80 first; ₱5,203.20 to arrears (May ₱4,996.67 + ₱206.53 toward June)
C-8	Applicant5	Membership Payments → MEMBERSHIP_FEE ₱100 (cash); then INITIAL_PAID_UP_CAPITAL ₱10,000 (cash)	Both `paid`; receipts with `TTMPCMF-` and `TTMPCPC-` IDs; applicant now ready for BOD approval
C-9	Non-Member1	Non-member loan → Bonus → encode Kristine A. Sales: DepEd ID, latest payslip, ₱20,000, 5 months	Interest 3%; amortization ₱4,600.00; net ₱19,900.00; status `pending` (submitted by Cashier). November window only
C-10	Member1	Savings → Deposit ₱1,500.00	Balance ₱8,000.00; receipt issued
C-11	Member1	Savings → Withdraw ₱3,000.00	Queued as `pending_verification`; balance drops to ₱5,000.00 only after Bookkeeper validates. Optional: try ₱9,000 first to show insufficient funds
C-12	Member19	CBU Payout → shows Total CBU ₱40,000.00 → applied to loans ₱5,100.02 → refundable ₱34,899.98; record **partial** payout ₱20,000.00	Remaining ₱14,899.98; member stays `terminated`; receipt issued

For C-12, pay a partial amount so the scenario can be repeated. A full payout of ₱34,899.98 moves Member19 to `closed`, which deletes the login and clears contact details — that cannot be undone.

Scenarios — Bookkeeper

Debt capacity = total monthly amortizations ÷ net pay, against the 40% limit.

Loan evaluation (B-1 to B-6)

#	Account	Do this	Expected result
B-1	Member1	Open application; run MIGS; run credit risk; check debt capacity; recommend	MIGS 68 → 5×, max ₱325,000; risk **Medium**; capacity 31.8% (₱10,823.33 ÷ ₱34,000); → `recommended for approval`
B-2	Member2	Same steps; open the Loan Demand Forecast card here	MIGS 55 → 5×, max ₱625,000; risk **High**; capacity 37.6% (₱14,980 + ₱1,933.33 Emergency ÷ ₱45,000); amount >₱500,000 → `recommended for bod approval` (skips Manager)
B-3	Member3	Same steps	Risk **Low**; capacity 7.3%; → `recommended for approval`
B-4	Member4	Same steps	Risk **Low**; capacity 21.3%; → `recommended for approval`
B-5	Member5	Open renewal; confirm 8 payments and old balance	Old balance ₱119,920.00 deducted; cash released ₱172,975.00; → `recommended for approval`
B-6	Member6	Renewal Overrides → open Member6's pending request → **Approve**	Status `approved`; renewal unlocked for 30 days or one renewal; bell notification to member; audit entry

Profile, revision and override history (B-7 to B-11)

#	Account	Seeded state	Do this	Expected result
B-7	Member7	`member_profile_change_requests` pending: net pay ₱24,500 → ₱26,800 (payslip for Oct 1–15, 2026 attached); contact number change	Open request; view payslip; approve	Status `approved`; new net pay applied to profile (feeds debt capacity and risk)
B-8	Member8	Consolidated ₱150,000 · 24 mo in `revision_requested`; Manager note: "Payslip unreadable — attach latest Sep–Oct payslip"	Open loan; read Manager note; attach corrected payslip; re-forward	Note visible; loan returns to `recommended for approval`
B-9	Member9	Override `pending`, 2 of 6 payments	Open Renewal Overrides queue	Shows in pending queue with reason and payments made (leave pending)
B-10	Member10	Override `approved` Oct 15	Open history tab	Approved, valid until Nov 14, 2026, not yet used
B-11	Member11	Override `rejected`	Open history tab	Rejected with note "Only 1 payment made; reapply after 3 more"

Payment validation (B-12 to B-18) — validates what the Cashier recorded in C-1 to C-7.

#	Account	Expected result after **Validate**
B-12	Member12	₱5,996.00 validated; Oct installment paid; outstanding ₱119,920.00

#	Account	Expected result after **Validate**
B-13	Member13	₱4,000.00 validated; deficiency ₱1,996.00 stays as arrears for November
B-14	Member14	₱8,000.00 validated; ₱2,004.00 credit applied to the Nov 25 installment
B-15	Member15	7 of 12 installments paid; remaining payable ₱8,666.71
B-16	Member16	Loan status → `fully paid` (₱33,000.00)
B-17	Member17	Penalty row ₱330.00 marked paid; June installment cleared; Jul–Oct still unpaid
B-18	Member18	Penalty ₱4,796.80 cleared; May installment cleared; June partly paid (₱206.53)

Savings and non-member (B-19, B-20)

#	Account	Do this	Expected result
B-19	Member1	Savings Transactions → open account; validate the ₱3,000 withdrawal from C-11	History shows Jun 25 opening ₱2,000, Jul/Aug/Sep/Oct deposits ₱1,500 each, withdrawal ₱3,000; balance ₱5,000.00
B-20	Non-Member1	Non-member loans → open Bonus application from C-9; set preliminary risk `low`; recommend	3% rate confirmed; → `recommended for approval`

Optional extras while logged in: MIGS recompute-all, Audit Trail (shows every action above with actor name).

Scenarios — BOD

Log in as BOD@gmail.com (account admin).

#	Account	Do this	Expected result
D-1	Applicant1	Member Approvals → open Applicant1 → **Approve for PMES**, schedule Nov 7, 2026	Attendance row created (stage `Training`, `Pending`); Applicant1 now in Secretary's PMES list
D-2	Applicant4	Open Applicant4 (resubmitted in A-4)	Corrected TIN, GSIS no. and ID visible; can approve for PMES
D-3	Applicant5	Open Applicant5 → PMES Present + both payments paid → **Approve membership**, BOD resolution no. 2026-046	Membership ID generated; CBU opens at ₱10,000; PDS and member account created; login now opens the Member portal
D-4	Member2	High-value queue → open ₱600,000 loan → review MIGS, risk (High), capacity → **Approve** with resolution no. 2026-045 and date	→ `recommended for approval`; loan enters Manager queue. (Rejecting requires remarks and is final: `bod rejected`)
D-5	Member20	Account Management → Terminate → reason "Voluntary withdrawal — retirement", effective today	Settlement preview: CBU ₱35,000.00 → loans ₱0 → refundable ₱35,000.00; resolution no. auto-generated; login locked; Cashier and Secretary notified
D-6	Member19	Account Management → Terminated members list	Resolution no., CBU ₱40,000.00, applied to loans ₱5,100.02, paid ₱20,000.00 (from C-12), remaining ₱14,899.98
D-7	—	Loan Policies (optional)	Fee policies match the figures in this doc (₱100/₱50k bracket, 2% CBU, ₱1.35/₱1,000, ₱100 notarial)

About Member19 vs Member20. Your list has BOD terminating Member19 and the Cashier paying out Member19. Since the Cashier logs in before BOD (needed for Applicant5's payment), Member19 is seeded as already terminated and Member20 is terminated live. If you'd rather terminate Member19 live, run BOD before Cashier and pre-seed Applicant5's payments as `paid` instead.

Scenarios — Secretary, Manager, Treasurer

Secretary (secretary@gmail.com)

#	Account	Do this	Expected result
S-1	Applicant2	PMES Attendance → Oct 24 session → mark **Present**	Attendance `Present`; Applicant2 moves to payment step
S-2	Applicant3	PMES Attendance → open Nov 7 rescheduled session	Listed under Rescheduled Training
S-3	Members 19, 20	Membership Records → open each	Status `Terminated`; record is view-only; CBU payout status shown

Manager (manager@gmail.com) — not in your list, but each loan must pass here before the Treasurer.

#	Account	Do this	Expected result
G-1	Members 1, 3, 4, 5, 8	Loan Approval queue → review Bookkeeper evaluation, MIGS, risk → Approve	→ `to be disbursed`; approval email sent
G-2	Member2	Open the BOD-approved ₱600,000 loan → Approve	BOD resolution visible; → `to be disbursed`
G-3	Non-Member1	Approve non-member Bonus loan	→ `to be disbursed`

Treasurer (treasurer@gmail.com) — vault seeded at ₱400,000. Handle Member2 **first**, before approving any other loan, so the available balance is still the full ₱400,000.

#	Account	Do this	Expected result
T-1	Member2	Open loan → vault check: available ₱400,000.00 vs net cash out ₱585,890.00 → **Reschedule** with note "Insufficient vault funds"	Shortfall ₱185,890.00; → `pending rescheduling`; appears in the Rescheduled tab with shortfall and date; no email to member

#	Account	Do this	Expected result
T-2	Members 3, 4, NM1	Approve for disbursement	→ `ready for disbursement`; committed rises to ₱69,300.00 (19,500 + 29,900 + 19,900)
T-3	Member2 (optional)	Vault → post a ₱300,000 deposit → reopen Rescheduled tab	Shortfall recomputes live; Member2 can now be approved for disbursement

Releasing cash is a Cashier action, so the released loans and the automatic CBU retention lines are not shown in this run. To show one release, use the live loan already sitting in `ready for disbursement` during the Cashier session.

Run order

Each role logs in once. The order follows the hand-offs, so no role waits on a step that hasn't happened yet.

1. **Applicants 1–5** — show each application state (A-1 to A-6). Applicant4 resubmits.
2. **Members 1–6** — submit the six applications and the override request (M-1 to M-6).
3. **Cashier** — payments for Members 12–18, Applicant5's fees, Non-Member1's application, Member1 deposit/withdrawal, Member19 payout (C-1 to C-12). Must come before Bookkeeper (validation) and BOD (Applicant5 approval).
4. **Bookkeeper** — evaluate Members 1–6, profile change, revision, overrides, validate all Cashier entries, savings, Non-Member1 (B-1 to B-20). Must come before BOD (Member2 routing).
5. **BOD** — PMES approval, Applicant5 membership, Member2 >₱500k approval, Member20 termination (D-1 to D-7).
6. **Secretary** — Applicant2 PMES attendance, terminated records (S-1 to S-3). Comes after BOD so the new terminations show.
7. **Manager** — approve Members 1, 2, 3, 4, 5, 8 and Non-Member1 (G-1 to G-3). Comes after BOD so Member2 is in the queue.
8. **Treasurer** — reschedule Member2 first, then approve the small loans (T-1 to T-3). Members 1 and 5 (₱292,895 and ₱172,975 net) would exceed the remaining vault; leave them in the queue or reschedule them too.

Seed checklist before demo day

- [ ] 5 applicant logins with the states in the Applicant table
- [ ] 20 member logins + PDS + MIGS snapshots + CBU lines + savings accounts
- [ ] Seeded loans, schedules and validated payments from table B
- [ ] Override requests for Members 9, 10, 11; profile change request for Member7; Member8 loan in `revision_requested`
- [ ] Member19 terminated with CBU offset recorded
- [ ] Vault at ₱400,000
- [ ] Credit-risk check run once for Members 1–4
- [ ] Re-check penalties if the demo falls after Oct 25
